### ABOUT ME

I am a Software Engineering student with a strong foundation in Python and experience in back end tools such as Django, Flask and SQL. Also, I am well-versed in software engineering tools and methodologies such as Docker, Git, CI/CD, Agile and RESTful APIs. Additionally, I have solid knowledge in Cybersecurity and practical experience with the deployment and management of applications in cloud environments.

I'm actively seeking my first job opportunity in the field. Due to my long-standing passion for the technology field and my technical background, I am confident in my ability to quickly adapt to any work environment and acquire the necessary skills to meet the specific demands of a project.
