● ABOUT ME

I am a Freelancer Software Developer with a strong foundation in Python and experience in back end tools such as Django, Flask and SQL. Also, I am well-versed in software engineering tools and methodologies such as Docker, Git, CI/CD, Agile and RESTful APIs. Additionally, I have solid knowledge in Cybersecurity and practical experience with the deployment and management of applications in cloud environments.

Due to my long-standing passion for the technology field and my professional background, I am confident in my ability to quickly adapt to any work environment and acquire the necessary skills to meet the specific demands of a project.
